

MUSIC THEORY

COURSE DESCRIPTION AND EXPECTATIONS

Course description:

You will learn to read and perform music.

You will gain a deeper understanding of the structure of music and how it is composed.

You will develop aural identification skills.

You will analyze, synthesize, compare & contrast, and compose music.

You will learn about the following topics: music literacy, scales, modes, intervals, chords and harmony.

Requirements:

Always have a PENCIL that has a point.

Always have an eraser.

Always have your workbook and folder.

Complete all assigned work and submit on time.

Be on time.

Use your time in class wisely.

Be kind, respectful and supportive of everyone in the class.

Stay socially distant from classmates.

Wear your facecovering.

Stay in the auditorium for the duration of the period. You may use the restroom one at a time when you are doing independent or small group work. Only leave with permission.

Work hard.

Ask questions.

Learn something new.

Grading:

Grades will be determined from your learning of the material through classwork, homework, quizzes, tests and compositions. Understand that your assignment may differ from others in the class on some days or for some topics. Some assignments will be individualized based on your personal skill level.
