Board of School Directors
Pine Grove Area School District
Pine Grove, Pennsylvania

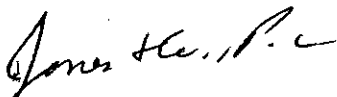

We have performed the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements, for Federal Awards (Uniform Guidance) of the Pine Grove Area School District for the year ended June 30, 2019. Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements, for Federal Awards (Uniform Guidance) indicates that the auditee is responsible for ensuring appropriate submission of the audit reports to appropriate government officials.

The reporting packages must be submitted no later than 30 days after you receive our Single Audit Report but no later than nine months after the year end (March 31, 2020).

The Single Audit was done to fulfill the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements, for Federal Awards (Uniform Guidance). It entailed: (1) an audit of the general purpose financial statements and our opinion thereon; (2) an examination of the Schedule of Expenditures of Federal Awards and our opinion thereon; (3) a review of the internal control structure based solely on the understanding obtained as part of the audit of the general purpose financial statements; (4) a review of the internal control structure made as a part of the audit of the federal financial assistance programs; (5) a review of compliance based on an audit of the general purpose financial statements in accordance with Government Auditing Standards; and (6) a review of compliance with laws and regulations related to the federal financial assistance programs and our opinion thereon.

As part of our report, we have enclosed a management letter for the fiscal year ended June 30, 2019.

When filing the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements, for Federal Awards (Uniform Guidance) and the Data Collection Form with the agencies listed on Page 2, the District must enclose the appropriate number of reports as listed.

INDEPENDENT AUDITOR'S REPORT

Board of School Directors
Pine Grove Area School District
Pine Grove, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Pine Grove Area School District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Pine Grove Area School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Pine Grove Area School District, as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 9-22, schedule of the District's proportionate share of the net pension liability, schedule of the District's contributions, schedule of District's proportionate share of net OPEB – PSERS liability, schedule of District contributions – OPEB – PSERS, schedule of District's proportionate share of the net OPEB liability, and schedule of District contributions – OPEB on pages 77-82, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

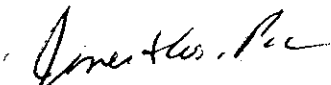

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Pine Grove Area School District's basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 21, 2020, on our consideration of the Pine Grove Area School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Pine Grove Area School District's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of School Directors
Pine Grove Area School District
Pine Grove, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Pine Grove Area School District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Pine Grove Area School District's basic financial statements, and have issued our report thereon dated January 21, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Pine Grove Area School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Pine Grove Area School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Pine Grove Area School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

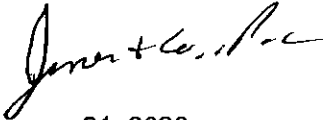

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Pine Grove Area School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Board of School Directors
Pine Grove Area School District
Pine Grove, Pennsylvania

Report on Compliance for Each Major Federal Program

We have audited the Pine Grove Area School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Pine Grove Area School District's major federal programs for the year ended June 30, 2019. Pine Grove Area School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Pine Grove Area School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Pine Grove Area School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Pine Grove Area School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Pine Grove Area School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

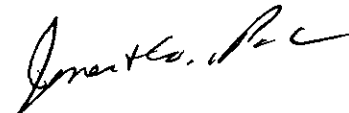

Report on Internal Control over Compliance

Management of the Pine Grove Area School District, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Pine Grove Area School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Pine Grove Area School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

This Management's Discussion and Analysis (MD&A) is intended to provide a narrative overview and analysis of the financial activities of the Pine Grove Area School District (the "District") for the year ended June 30, 2019. The District's financial performance is discussed and analyzed within the context of the financial statements and the disclosures that follow. This discussion focuses on the District's financial performance as a whole; readers should review the basic financial statements and the notes to the financial statements for a better understanding of the District as a whole.

FINANCIAL HIGHLIGHTS

Total Net Position of the District increased \$1,005,878 in 2019 to (\$12,100,246) at June 30, 2019. Net position of governmental activities increased \$921,567 or (6.78%) above 2018. Net position of the business-type activity increased \$84,311, or 53.34%, above 2018.

The District had \$23,900,966 in expenses related to governmental activities in 2019; of these expenses, \$5,314,180 was offset by program-specific charges for services, grants or contributions. General revenues (primarily taxes and state subsidies) of \$19,515,586 were adequate to provide for these programs.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements are prepared using the accrual basis of accounting. The focus of these statements is long-term.

The statement of Net Position presents information on all of the District's assets and liabilities and deferred inflows and outflows of resources. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and accrued vacation and sick leave).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities include all of the District's instructional programs and support services except for its food service operation, which is considered a business-type activity.

The government-wide financial statements can be found of pages 23-24 of this report.

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of fund financial statements is short-term. Fund financial statements are prepared using the modified accrual basis of accounting. The District uses several different types of funds but the two most significant types are the governmental and proprietary fund types.

GOVERNMENTAL FUNDS

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the District's major funds (General Fund and Capital Project Fund).

The basic governmental fund financial statements can be found on pages 25 through 34 of this report.

The District adopts an annual budget for its General Fund. A budgetary comparison statement for the General Fund has been provided on page 29 of this report to demonstrate compliance with this budget.

PROPRIETARY FUNDS

The District accounts for its food service operation in a proprietary fund, which report the same functions presented as business-type activities in the government-wide financial statements. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The basic proprietary fund financial statements can be found on pages 30-32 of this report.

FIDUCIARY FUNDS

The District maintains fiduciary funds for private purpose trust and student activity funds. All of the District's fiduciary activities are reported in a separate statement of Net Position on page 33 of this report as these activities cannot be used to finance District operations.

NOTES TO THE FINANCIAL STATEMENTS

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 35-73 of this report.

GENERAL FUND BUDGETARY HIGHLIGHTS

The District prepares a budget each year for its General Fund according to Pennsylvania law. The budget complied with all applicable state laws and financial policies approved by the School Board of Directors.

The General Fund's approved budget for 2019 included revenue of \$24,072,527 and expenditures and other financing uses of \$24,072,527. There were no amendments made to the budget in 2019.

Actual revenues in 2019 were \$24,670,694, exceeding budgeted revenues of \$24,072,527 by \$598,167. The favorable variance was attributable primarily to actual exceeding budgeted amounts of \$289,097, \$263,429, and \$45,641 in local, state, and federal source revenues, respectively.

Actual expenditures exceeded the budgeted expenditures in 2019 by \$2,405,548. The primary causes for the unfavorable variance were an increase in operation of non-instructional services expenditures (due to construction-related expenditures) and an increase in support services expenditures of \$1,962,844 and \$642,629, respectively, offset by a decrease in instruction expenditures of \$199,925.

PINE GROVE AREA SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2019
(Unaudited)

Other financing uses were \$2,043,759 in 2019, less than the budgeted amount of \$2,378,740 by \$344,981. Most of the favorable variance is attributable to \$0 and \$0 of actual budgetary reserve and transfer expenditures, which was less than the budgeted amounts of \$130,026 and \$218,676, respectively.

GOVERNMENTAL ACTIVITIES

The Net Position of the governmental activities increased by \$921,567 or 6.78% above 2018. The majority of the increase was due to the adoption of GASB Statement No. 68, *Accounting and Financial Reporting Pensions* in prior years, as disclosed in Note 15 to the financial statements. Due to this adoption in 2018, a prior period adjustment of (\$4,408,176) was made during that year to adjust the District's reportable Net Pension Liability as of 6/30/17. The result was a significant contributor to a large net position decrease in prior years. The absence of this GASB Statement No. 68 adjustment during the 2018-19 year was a large contributing factor to the increase in net position. In addition, revenues increased approximately 2.95%, attributable primarily to an increase in local tax collections.

BUSINESS-TYPE ACTIVITY

The Net Position of the District's food service operation increased by \$84,311 in 2019.

LOCAL SOURCES

Approximately 70.28% of the District's 2018-19 local source revenue is generated from real estate taxes. During 2019, local revenues increased \$291,247 over 2018. The current real estate tax revenue increased by approximately \$327,853, delinquent tax collections decreased approximately \$377,849, and interest income increased by approximately \$41,455.

STATE SOURCES

State sources increased by \$278,515. The subsidies associated with the Basic Education Funding, Special Education Funding, Transportation, and the increase in Social Security and Retirement revenue account for a majority of the increase in state source revenue. Note: The District's retirement expense is offset by the revenue source received from the State.

FEDERAL SOURCES

Federal sources of revenue decreased by \$11,191 or 2.16% primarily due to less than expected Title funding as compared to prior year.

OTHER SOURCES

Revenues from other sources remained the same as last year at \$0.

Total	<u>\$ 26,143,094</u>	<u>\$ 24,340,086</u>	<u>\$ 1,803,008</u>

INSTRUCTION

The amount of instructional expenses reported at June 30, 2019 increased approximately \$682,902 from the prior year. The increase can be attributed in predominantly to an increase in the contractual obligations of professional positions and the resulting employee benefits related to the pension and insurance expenses, in addition to increase in curriculum spending.

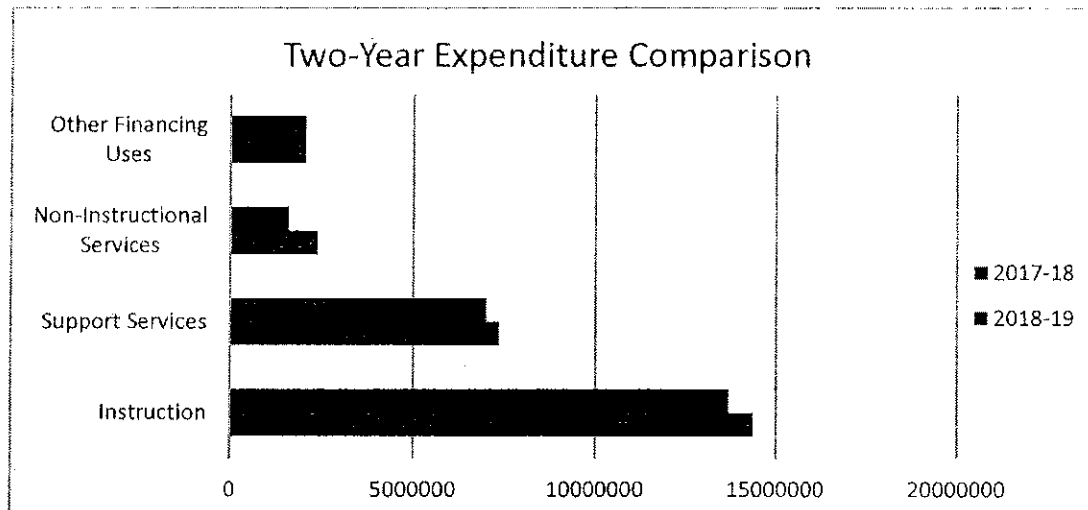

SUPPORT SERVICES

The amount of expenditures recognized in this category increased by approximately \$348,488 from the prior year. The increase in support services expenditures can be attributed to increases in special education service costs and several part-time aide positions that were previously vacant being filled throughout the year.

NON-INSTRUCTIONAL SERVICES, CAPITAL OUTLAY, REFUND OF PRIOR YEAR, AND DEBT SERVICE

The amount of expenditures in this category increased by approximately \$774,719. The majority of this increase can be attributed to the completion of hvac renovation project expenditures for the district's middle school occurring in the current year.

DEBT SERVICE FUND

The Debt Service Fund is used to account for resources accumulated for the payment of long-term obligations. It is normally used to account for refunding of bond issues and the payment of the annual debt service on existing bonds. The District periodically reviews its existing debt and refunds such debt when economically feasible. The following is a recap of the District's bond activity for 2019:

	<u>Balance</u> <u>07/01/2018</u>	<u>Additions</u>	<u>Payments/</u> <u>Refinancing</u>	<u>Balance</u> <u>06/30/19</u>	<u>Due Within</u> <u>One Year</u>

NONCURRENT LIABILITIES

Noncurrent liabilities will be paid one year or later from the date of the Statement of Net Position. The District's noncurrent liabilities include compensated absences, bonds payable, and other long-term obligations, net of current portions. It should be noted the Governmental Accounting Standards Board (GASB) Statement #45 Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions became effective for the District in the 2008-2009 fiscal year.

The Postemployment Benefits obligation approximated \$5,544,045 as of June 30, 2019 and is reflected on the statement of Net Position.

In June 2012, GASB issued Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27. This statement is intended to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. The District adopted Statement No. 68 beginning with its fiscal year 2015 financial statements. The District has worked in conjunction with actuaries and representatives from the State pension system to calculate the liability moving forward, as disclosed in Note 15 to the financial statements.

SELECTED SUPPLEMENTAL INFORMATION

The District is required to update, on an annual basis, information as it relates to Continuing Disclosure for Bond Obligation Compliance.

Prior to 2018-19, the school district sold its delinquent taxes to a third-party entity for a lump sum payment determined annually. However, the district opted not to enter into this sale in the 2018-19 school year. 2018 delinquent real estate taxes are collected by the county and remitted directly to the school district.

For year 11-12, the tax levy is:

Current Levy + Penalties – Discounts, Exonerations and Refunds

For year 11-12, tax collection included delinquent taxes.

ECONOMIC CONDITION AND OUTLOOK

The District expects some growth in the near future given the residential and commercial nature of the local economy, though the amount of growth is not readily determinable. The District's assessed values over the prior two years averaged significant growth, and above-average growth was seen in the current year. The District's student population has remained consistent during the same period.

The District is also complying with the enacted law as passed within the Commonwealth of Pennsylvania entitle Act 1 of Special Session of 2007. The goal of the Act 1 legislation seeks to reduce property taxes but in doing so also ensures that the District does not suffer any loss of revenue attributable to the shifting of local revenue sources. During June 30, 2019, the District has complied with all aspects of Act 1.

Retirement Costs associated with District Personnel increased during the fiscal year due to an increase in the rate certified by the Public School Employees' Retirement System. The table below illustrates the rates charged to the District.

2018-19	33.43%
2019-20	34.29%
2020-21	34.51%

Over the next several years, it is projected that the contribution rates for the Public School Employees' Retirement System of Pennsylvania will rise, though not as significantly as in prior years. Based on actuarial projections, it is anticipated that by the school year 2023-2024, the total employer contribution rate is projected to be 36.12%.

PINE GROVE AREA SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The Pine Grove Area School District (the "District") is governed by the Pine Grove Area School District Board of Education (the "Board"), which has responsibility and control over all activities related to public school education within the District. The District receives funding from local, state, and federal government sources and must comply with all of the requirements of these funding source entities. Board members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and the primary accountability for fiscal matters.

The financial statements of the Pine Grove Area School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

In June 1999, the Governmental Accounting Standards Board (GASB) approved Statement No. 34, Basic Financial Statements-and Management's Discussion and Analysis -for State and Local Governments.

The financial statements include:

1. Management's Discussion and Analysis (MD&A), providing an analysis of the District's overall financial position and results of operations.
2. Financial statements prepared using full-accrual accounting for all of the District's activities.
3. A change in the fund financial statements to focus on major funds.

REPORTING ENTITY

The District does not have any component units nor is the District a component unit of any other primary government.

PINE GROVE AREA SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

BASIS OF PRESENTATION

District-wide statements - The statement of net position and the statement of activities provide information about the financial activities of the overall district, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-Type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each business-type activity of the District and for each function of the District's governmental activities.

1. Direct Expenses are those that are clearly identifiable with a specific program.
2. Program revenues include 1) charges to students or recipients who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.
3. Taxes and other items not properly included among program revenues are reported as general revenues.

Depreciation expense can be specifically identified by function and is included in the direct expenses of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities. The effect of interfund activity has been removed from these statements.

Fund Financial Statements - The fund financial statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category - *governmental, proprietary and fiduciary* - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

PINE GROVE AREA SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

BASIS OF PRESENTATION - continued

Proprietary fund operating revenues, such as charges for services result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities. Enterprise fund operating revenues are related to charges for food in the District's cafeteria. The primary non-operating revenues are federal nutrition program grants and commodities received from the U.S. Department of Agriculture.

The fiduciary funds are presented in the fiduciary fund financial statements by type (agency). Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the District, these funds are not incorporated into the District-wide statements.

The District reports the following major governmental funds:

General Fund - The General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

Capital Projects Fund - The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary and trust funds. The District also uses the capital projects fund to pay initial functional costs, such as textbooks, involved in opening a facility, therefore all expenditures are not recorded as capital outlay.

The District reports the following major proprietary fund types:

Food Service Fund - The Food Service Fund is used to account for all financial transactions related to the food service operation.

Other fund types:

Agency Funds - These funds account for assets held by the District as an agent for various student groups and clubs.

PINE GROVE AREA SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

BASIS OF ACCOUNTING

The district-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities are reported as other financing sources.

All business-type activities and enterprise funds of the district follow FASB Statements and Interpretations on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

PINE GROVE AREA SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

BUDGETING

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the general fund. Project-length financial plans are used for capital projects funds. All unencumbered budget appropriations, except capital projects, lapse at the end of each fiscal year.

At the fund level, actual expenditures cannot exceed budgeted appropriations; however, with proper approval by the school board, budgetary transfers between accounts can be made. The budgeted financial statements represented in this report reflect the final budget authorization, including all transfers.

DEPOSITS AND INVESTMENTS

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments with a maturity of one year or less at the time of purchase are recorded at cost or amortized cost. Those with a maturity of greater than one year are reported at fair value. Changes in the fair value of investments are recorded as investment income.

INVENTORY

Inventories are recorded using the consumption method of accounting and consist of purchased food, supplies, and surplus commodities received from the federal government. Food and supply purchases are recorded at invoice cost, computed on a first-in, first-out method. Surplus commodities are stated at standard costs, as determined by the Department of Agriculture. In the fund based financial statements, commodities received are recorded as deferred revenue until consumed.

PINE GROVE AREA SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

CAPITAL ASSETS

Capital assets, which include land, buildings and improvements, and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$1,500. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized.

Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Useful Life</u>
Land	Not Depreciated
Land Improvements	20 years
Buildings and Improvements	15-30 years
Furniture and Equipment	5-15 years
Vehicles	3-15 years

COMPENSATED ABSENCES

Compensated absences are those for which employees receive pay. A liability is recorded through the use of estimates, which apply historical data to current factors. The District maintains records of unused absences and applies current and/or contracted compensation rates to the various types of compensated absences. Sick leave is recorded using the termination payment method, which has no current maximum per employee. The District allows only restricted sabbatical leave and therefore, has no recorded liability in advance of the sabbatical.

PINE GROVE AREA SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

In government-wide financial statements as well as proprietary fund financial statements, all accrued liabilities and long-term debt are reported as liabilities in the statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

RESTRICTED ASSETS

Restricted assets are cash and cash equivalents whose use is limited by legal requirements such as a bond indenture. Restricted assets are reported only in the District-wide financial statements.

FUND EQUITY

In the fund financial statements, governmental funds report fund balance in accordance with GASB Statement No. 54 (see Note 12).

NET POSITION

Net position represents the difference between assets and liabilities in the District-wide financial statements. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets.

PINE GROVE AREA SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

FOOD SERVICE FUND - UNALLOCATED COSTS

The District does not attempt to allocate Building-Wide Costs to the Food Service Fund. Thus, General Fund expenditures (utilities, janitorial services, insurance, etc.) which partially benefit the Food Service Fund are not proportionately recognized within the Food Service Fund. Similarly, the Food Service Fund does not recognize a cost for the building space it occupies (no facilities rental expense).

POST EMPLOYMENT HEALTH CARE BENEFITS - COBRA BENEFITS

Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the District makes health care benefits available to eligible employees and eligible dependents. Certain requirements are outlined by the federal government for the coverage. The premium plus 2% administration fee is paid in full by the insured on or before the tenth day of the month for the actual month covered. This program is offered for a duration of 18 months. There is no associated cost to the District under this program, and there are zero participants in the program as of June 30, 2019.

RETIREE BENEFITS

In addition to the pension benefits described in Note 6, the District makes health care benefits available to all eligible employees who retired from the District. The premium is paid in full by the insured who retired prior to June 30, 2012 on or before the tenth day of the month for the actual month covered. The District pays the full cost of retirees who retired as of June 30, 2012 less \$100 contribution by the retiree. There are currently twenty-nine participants in the program as of June 30, 2019.

ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2 - DEPOSITS AND INVESTMENTS:

DEPOSITS

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned. The deposit policy of the school district adheres to state statutes and prudent business practice. Cash equivalents are defined as short-term, highly liquid investments that are readily convertible to known amounts of cash and include investments with original maturities of three months or less. Cash and cash equivalents consist of demand deposits at various financial institutions, a money market mutual fund investment in Pennsylvania Treasurer's Invest Program for Local Government, a money market fund and certificate of deposit, the Pennsylvania School District Liquid Asset Fund (PSDLAF), and cash on hand of \$475. The market values of deposits are equal to the cost of the deposits.

Under Section 440.1 of the Public School Code of 1949, as amended, the District is permitted to:

Deposit in savings accounts or time deposits or share accounts of institutions insured by the Federal Deposit Insurance Corporation to the extent that such accounts are so insured and, for any amounts above the insured maximum, provided that approved collateral as provided by law is pledged by the depository.

At June 30, 2019, the carrying amount of the District's deposits was \$7,846,464. and the bank balance was \$8,986,503. Of the bank balance, \$538,890. was covered by federal depository insurance coverage and \$7,666,560. was exposed to custodial credit risk because it was uninsured and the collateral held by the depository's agent was not in the District's name.

INVESTMENTS

The investment policy of the school district adheres to state statutes and prudent business practices. The investments of the school district consist of certificates of deposit and U.S. Agency Obligations as authorized by the Board. Investments are stated at cost including accrued interest which approximates market value.

The District invests in the Pennsylvania School District Liquid Asset Fund (PSDLAF) and the Pennsylvania Treasurer's Invest Program for Local Government as authorized by the Board. PSDLAF was established to enable school districts to pool funds for investment in instruments authorized by Section 440.1 of the Pennsylvania Public School Code of 1949, as amended. Pennsylvania Treasurer's Invest Program for Local Government insures that it will not place deposits with any single issuing institution if the largest participant's pro rata share of such deposits exceeds \$100,000., unless such deposits are secured by (1) Treasurer, federal agencies (collateralized at 102%) or (2) certificates of deposit (collateralized by 120%).

As of June 30, 2019, the District had the following investments.

PA School District Liquid Asset Fund (PSDLAF)	\$ 781,043
	<hr/>
Total Investments	\$ <u>781,043</u>

Although not registered with the Securities and Exchange Commission and not subject to regulatory oversight, PA Invest and PSDLAF act like money market mutual funds in that their objective is to maintain a stable net asset of \$1 per share, are rated by a nationally recognized statistical rating organization and are subject to an independent annual audit.

INVESTMENTS - continued

Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. It is the practice of the District to limit its interest rate risk by investing in securities with maturity dates under one year. At June 30, 2019, the District's investments in securities of U.S. agencies had maturity dates of less than one year.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The District has no investments subject to custodial credit risk.

Credit Risk

Under Section 4440.1 of the Public School Code of 1949, as amended, the District is permitted to invest its monies as follows:

Obligations of (1) the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, (2) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth, or (3) any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.

Concentration Risk

The District does not have a policy that would limit the amount it may invest in any one issuer. The District's investments are with PA Invest and Pennsylvania School District's Liquid Asset Fund (PSDLAF).

RECONCILIATION OF CASH, CASH EQUIVALENTS, AND INVESTMENTS

The classification of cash, cash equivalents, and investments on the combined financial statements is based on criteria set forth in GASB Statement No. 9. General Obligation Bonds - Series of 2012

On June 14, 2012, the District issued \$9,620,000. of General Obligation Bonds – Series of 2012, which was used to advance refund all of the District's outstanding General Obligation Bonds - Series of 2008 and pay certain costs and expenses related to the issuance of the Bonds. Interest rates on the Bonds vary from .45% to 2.50% and mature in various amounts beginning March 1, 2013 and ending March 1, 2023.

General Obligation Bonds - Series of 2015

On May 20, 2015, the District issued \$6,555,000. of General Obligation Bonds – Series of 2015, which was used to advance refund all of the District's outstanding General Obligation Bonds - Series A of 2010 and General Obligation Bond – Series B of 2010 and pay certain costs and expenses related to the issuance of the Bonds. Interest rates on the Bonds vary from .32% to 2.10% and mature in various amounts beginning September 15, 2015 and ending February 5, 2024.

Compensated Absences

The General Long-Term Debt group of accounts includes liability of \$427,461, which represents the amount of compensated absences computed by using unused sick and vacation days at current compensation rates. If an employee separates from service for reasons other than sickness or retirement, no payout is required. If an employee retires with unused compensated absences, the payout policy is as follows:

Emergency and personal - no payout

Vacation (administrative personnel) - limited accumulation of vacation days

Sickness - payout is based on age and years of service in the District.

Other Post-employment Benefits

General Long-Term Debt includes \$4,101,045. and \$1,443,000. of liabilities, which represent other benefits provided upon termination of employment. The reader should consult the separate footnote on these benefits for more information.

GRANT PROGRAMS

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2012 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

During the normal course of business, the District is subject to numerous disputes and claims. At June 30, 2019, there were no items of pending or threatened litigation which management feels would have a material effect on the District's financial condition.

FUTURE LIABILITY

The District, along with the participating districts of the Schuylkill Vocational Education Center, will be responsible for a portion of a liability due to another sending school district based on an overpayment made by the member district. At the time of this report, the total amount due for all districts is \$64,412. The District was responsible for approximately 9.677% of 2018-2019 costs and approximately 9.283% of the 2019-2020 costs. The liability will be paid off entirely as of June 30, 2020.

NOTE 12 - GASB STATEMENT NO. 54:

On June 15, 2010, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 54 (Fund Balance Reporting and Governmental Fund Type Definitions). This Statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB-54 establishes criteria for classifying fund balances into specifically defined classifications that should be based on hierarchy that reflects the extent to which the government is bound to honor constraints on how those funds can be spent. Established classifications are as follows:

Nonspendable – Amounts that cannot be spent because they are either in a nonspendable form or are legally or contractually required to be maintained intact.

Restricted – Amounts constrained to be used for a specific purpose stipulated by constitution, external resource providers or through enabling legislation.

Committed – Amounts constrained to be used for a specific purpose determined by a formal action of the School District Board of Directors (the district's highest level of decision-making authority).

Assigned – Amounts intended to be used for a specific purpose by the finance committee or an individual authorized by the governing body.

Unassigned – Residual amounts available for any purpose not contained in other classifications.

ORDER OF FUND BALANCE SPENDING POLICY

The District's policy is to apply expenditures against nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year by adjusting entries.

First, nonspendable fund balances are determined. Then, restricted fund balances for the nongeneral funds are classified as restricted fund balance.

It is possible for the nongeneral funds to have negative unassigned fund balance when nonspendable amounts plus the restricted fund balances for specific purpose amounts exceed the positive fund balance for the nongeneral fund.

MINIMUM FUND BALANCE

The District's school board policy states:

- 1.) The school district will strive to maintain an unassigned general fund balance of not less than five percent (5%) and not more than eight percent (8%) of the budgeted expenditures for that fiscal year.
- 2.) The total fund balance, consisting of several portions including committed, assigned and unassigned, may exceed eight percent (8%).
- 3.) If the unassigned portion of the fund balance falls below the threshold of five percent (5%), the board will pursue variations of increasing revenues and decreasing expenditures or a combination of both until five percent (5%) is attained. If the assigned and unassigned portions of the fund balance exceed eight percent (8%) of budgeted expenditures, the Board may utilize a portion of the fund balance by appropriating excess funds for nonrecurring expenditures only.

PLAN DESCRIPTION

The Pine Grove Area School District Retiree Health Care Plan (the Plan) is a single-employer defined benefit healthcare plan administered by the School Board. The Plan provides postemployment healthcare benefits to eligible retirees of the District in accordance with the various labor contracts and personnel policies. Inasmuch as the Plan has no assets, reporting another employee benefit trust fund in the accompanying financial statements is not required nor was a separate or stand-alone report issued.

FUNDING POLICY

The contribution requirements of plan members and the District are established and may be amended by the School Board, subject to applicable labor contracts and benefit plans. Plan members are required to pay \$100. per month towards the premium for medical, drugs, dental, and vision. The District pays the remaining premium for the member and remaining premium for member and spouse for those under Act 93 Agreement. The District also pays the full premium for life insurance in varying amounts. The length of benefits coverage ranges from five years or from date of retirement to age 65.

For 2019, the District made no contributions and instead elected to continue funding on a *pay-as-you-go* basis, which amounted to \$512,916. These costs are recognized as an expense when claims or premiums are paid.

ACTUARIAL METHODS AND ASSUMPTIONS

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of potential occurrences of certain events in the future. Examples include assumption about future employment, mortality, healthcare costs trends, inflation, etc. Amounts determined regarding the funded status of the plan and the annual required contributions of the District are subject to constant changes and modifications as actual results are compared with past expectations and new estimates and assumptions are formed regarding the future. Projections of retiree benefits for financial reporting purposes are based on current plan activities as it is handled by the District and the benefits are received by the eligible plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the District and plan members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2018 actuarial valuation, the individual entry age normal actuarial cost method was used. There were also merit and seniority salary rate increase assumptions taken into consideration and those are detailed in the actuarial study and are based on age. There was also an inflationary rate assumption factored into the calculation. Per the actuarial study, the assumed rate ranges from 10% in the short-term to 5% in the long-term for health care related costs. The UAAL is being amortized as a level percentage of active member payroll over a period of 20 years.

NOTE 15 – PENSION:

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PENSIONS

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms investments are reported at fair value.

General Information about the Pension Plan

PLAN DESCRIPTION

PSERS is a governmental cost-sharing, multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report than can be obtained at www.psers.state.pa.us.

BENEFITS PROVIDED

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-3) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

CONTRIBUTIONS

Member Contributions:

Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contributed at the Membership Class T-E rate of 7.50% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elected Class T-F membership, contribute at 10.30% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.50% and 9.50% and Membership Class T-F contribution rate to fluctuate between 10.30% and 12.30%.

Employer Contributions:

The school district's contractually required contribution rate for fiscal year ended June 30, 2019 was 32.60% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the District were \$2,936,000. for the year ended June 30, 2019.

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS

At June 30, 2019, the District reported a liability of \$33,219,000. for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2017 to June 30, 2018. The District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2019, the District proportion was .0692%, which was a decrease of .0011% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2019, the District recognized pension expense of \$342,000. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 267,000	\$ 514,000
Changes in assumptions	619,000	0
Net difference between projected and actual investment earnings	163,000	0

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS – continued

\$1,366,000. reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Estimated Amount
2019	\$ 524,000
2020	(114,000)
2021	(704,000)
2022	(127,000)
Thereafter	<u>0</u>
Total Deferred Outflows/ Inflows of Resources	\$ <u>(421,000)</u>

The total pension liability at June 30, 2018 was determined by rolling forward the System's total pension liability at June 30, 2017 to June 30, 2018 using the following actuarial assumptions applied to all periods included in the measurement:

- Actuarial cost method – Entry Age Normal – level % of pay.
- Investment return – 7.25%, includes inflation at 2.75%
- Salary Growth – Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study that was performed for the five year period ending June 30, 2015.

ACTUARIAL ASSUMPTIONS

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global public equity	20.0%	5.2%
Fixed income	36.0%	2.2%
Commodities	8.0%	3.2%
Absolute return	10.0%	3.5%
Risk party	10.0%	3.9%
Infrastructure/MLPs	8.0%	5.2%
Real estate	10.0%	4.2%
Alternative investments	15.0%	6.7%
Cash	3.0%	0.4%
Financing (LIBOR)	-20.00%	0.9%
	<u>100%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2018.

DISCOUNT RATE

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

SENSITIVITY OF THE DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY TO CHANGES IN THE DISCOUNT RATE

The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net position liability would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate:

	1% Decrease 6.25%	Current Discount Rate 7.25%	1% Increase 8.25%
District's proportionate share of the net pension liability	\$ 41,178,000	\$ 33,219,000	\$ 26,490,000

Other Postemployment Benefits

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the Health Insurance Premium Assistance Program

Health Insurance Premium Assistance Program

The System provides Premium Assistance which, is a governmental cost sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2018, there were no assumed future benefit increases to participating eligible retirees.

Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program.

Pension Plan Description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS’ Health Options Program. As of June 30, 2018, there were no assumed future benefit increases to participating eligible retirees

Employer Contributions:

The school districts’ contractually required contribution rate for the fiscal year ended June 30, 2019 was 0.83% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the District were \$77,000. for the year ended June 30, 2019.

**2. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources
and Deferred Inflows of Resources Related to OPEB**

At June 30, 2019, the District reported a liability of \$1,443,000. for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System’s total OPEB liability as of June 30, 2017 to June 30, 2018. The District’s proportion of the net OPEB liability was calculated utilizing the employer’s one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2019, the District’s proportion was .0692% percent, which was a decrease of .0011% from its proportion measured as of June 30, 2018.

3. Actuarial Assumptions

The Total OPEB Liability as of June 30, 2018, was determined by rolling forward the System’s Total OPEB Liability as of June 30, 2017 to June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method - Entry Age Normal - level % of pay.
- Investment return – 2.98% - S&P 20 Year Municipal Bond Rate.
- Salary growth - Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS’ experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.
- Participation rate:
 - Eligible retirees will elect to participate Pre age 65 at 50%
 - Eligible retirees will elect to participate Post age 65 at 70%

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study that was performed for the five year period ending June 30, 2015.

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2015 determined the employer contribution rate for fiscal year 2017.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality rates and retirement ages were based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 for both males and females for healthy annuitants and for dependent beneficiaries. For disabled annuitants, the RP-2000 Combined Disabled Tables with age set back 7 years for males and 3 years for females for disabled annuitants. (A unisex table based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 years for both genders assuming the population consists of 25% males and 75% females is used to determine actuarial equivalent benefits.)

3. Actuarial Assumptions - continued

Investments consist primarily of short term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

<u>OPEB - Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	5.9%	0.3%
US Core Fixed Income	92.8%	1.2%
Non-US Developed Fixed	1.3%	0.4%
	<u>100.0%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2018.

Discount rate

The discount rate used to measure the Total OPEB Liability was 2.98%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.98% which represents the S&P 20 year Municipal Bond Rate at June 30, 2018, was applied to all projected benefit payments to measure the total OPEB liability.

Sensitivity of the System Net OPEB Liability to Change in Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2018, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2017, 93,380 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2017, 1,077 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

The following presents the System net OPEB liability for June 30, 2018, calculated using current Healthcare cost trends as well as what the System net OPEB liability would be if it health cost trends were 1-percentage point lower or 1-percentage point higher than the current rate:

	<u>1% Decrease</u>	<u>Current Trend Rate</u>	<u>1% Increase</u>
System net OPEB liability	\$ 1,443,000	\$ 1,443,000	\$ 1,443,000

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate

The following presents the net OPEB liability, calculated using the discount rate of 2.98%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (1.98%) or 1-percentage-point higher (3.98%) than the current rate:

	<u>1% Decrease 1.98%</u>	<u>Current Discount Rate 2.98%</u>	<u>1% Increase 3.98%</u>
